ABOUT CALLIDORA EVENT PLANNER

ABOUT THE APP

MAKING YOUR EVENT DIGITAL IN MINUTES

At Callidora, we built the **Event Planner** to make conferences and corporate events seamless. From **QR-based check-ins** and attendee tracking to real-time analytics and admin dashboard, our platform is designed to simplify event operations and maximize efficiency.

1 SMART QR CODE CHECK-IN

2 REAL-TIME ANALYTICS

3 ADMIN DASHBOARD

USE CASES

Our Results

90%

Faster
Check-In

No queues, no delays.
Guests enter in
seconds with QR-based
entry.

50%

Lower
Operational Costs

Eliminate printing, reduce
manpower, and prevent
duplicate/re-check-ins -
saving both time and
money for organizers.

100%

Guest
Satisfaction

Attendees report smoother
experiences with
hassle-free check-ins and
instant access.

THE PROCESS

ROADMAP (10-15 days before event)

Event Items

Set up event items such as entry passes, lunches, or giveaways with tracking enabled.

Guest List

Send attendee list with item access and we will generate unique QR codes.
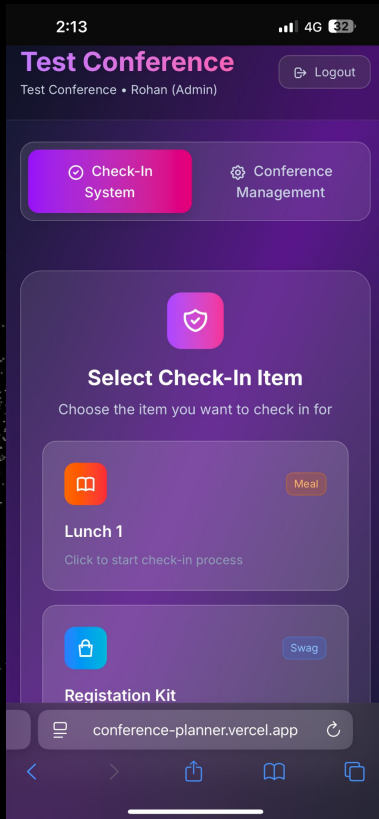

Users & Admins

Assign event admins and create user roles to manage different access levels.

Hassle free check-in!

Enable smooth QR-based entry for guests with real-time validation!

The Application

Users and admins after logging in can see list of items for conference

conference-planner.vercel.app

Simply press button to open QR scanner

● Callidora Technology

The Application
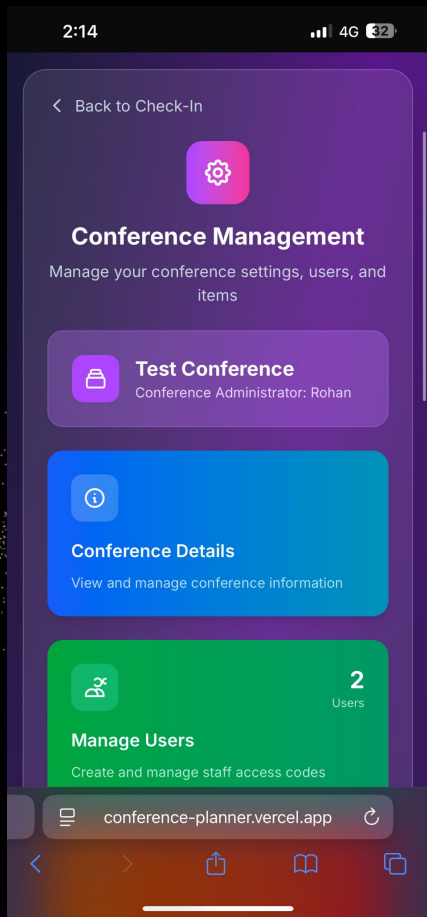

Simply place QR code in middle and it will scan

The Application

Software will intelligently based on QR code signal:

a. Green tick If attendee is allowed for the item and will check-in
b. Red cross if attendee is not allowed for the item
c. Red cross If attendee has already scanned
d. Red cross If item deadline has passed

Admin Control

1. Conference details: edit information like name

2. Manage Users: create users and admins

3. Manage Items: create and edit items

4. Qr Code Management: Can add and remove items associated with QR code

User Management

Two types of users: Staff & Admins

Admins can add staff and change access codes
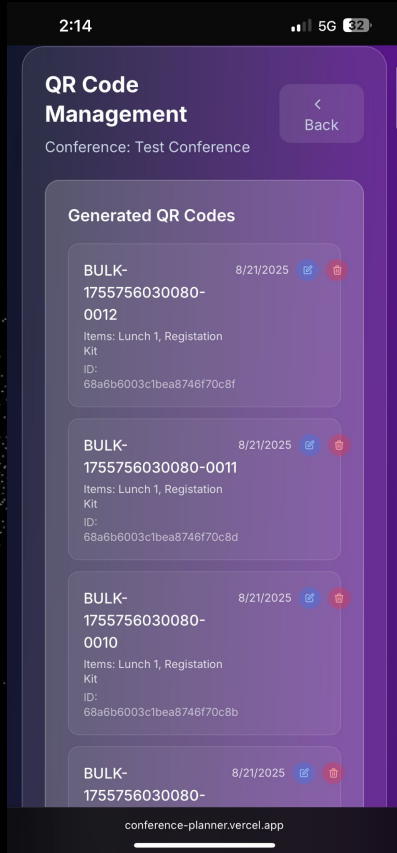

Callidora Technology

Item Management

Admins can create and
edit items for the event

They can also see
statistics like QR code
generated and check-ins
done

QR Code Management

Admins can add and
remove items associated
with a QR code after it
has been generated by us
